How amending IPRs for vaccines could help India

PREMIUM
Mumbai, India - Up to 30 April, India administered 149.32 million doses (123.84 million Dose 1 and 25.48 million Dose 2) (Satish Bate/HT PHOTO)

2 min read . Updated: 03 May 2021, 06:34 AM IST

Jagadish Shettigar, Pooja Misra

As the second wave of covid-19 rages in India, it is essential to speed up
