PROMOTIONS

ACADEMIC LEADERSHIP PROGRAMME AT BIMTECH FOR ACADEMIC LEADERS OF BHUTAN

From 5th to 9th November 2024, BIMTECH conducted the Digital Edge for Academic Leaders programme in collaboration with the Ministry of Education, Government of Bhutan. This initiative aimed to empower school leaders from Bhutan to enhance their leadership skills in an increasingly digital world.

Dr Prabina Rajib, Director of BIMTECH, stressed the need for digital literacy among educators, while Dr Meena Bhatia, Dean of Executive Education, underscored the value of global cooperation in developing future-ready school leaders.

The programme featured sessions on key topics such as Education Evolution: Schools as Learning Organisations, Visionary Educators: Redefining Pedagogic Leadership, and Nurturing Future Innovators through whole-brain leadership and cohesive teaching models. Discussions also explored the impact of digital technology on education, coaching and mentoring strategies, and practical applications of smart classrooms. Emphasis was placed on interactive learning and group activities to ensure participant engagement.

The event included a cultural immersion activity and a school visit, providing a holistic learning experience. The programme concluded successfully, highlighting the importance of fostering leadership in education through such impactful initiatives.
